ISSUE 2:

STARTED BASIC CODE > STARTED ADDING FEATURES TO THE CODE

TEAM COLLABORATION:

Summary of issue allocation and team collaboration:

Balanced issue allocation where every team member had similar workloads and similar input levels.

Gordon: Lots of work on github and the actual code; Did most of the code and sorted our github page.

Kazuma: less work on code however, major impact on documentation and planning our code

Sean: The leader: did lots of coding and lots of work in the documentation. Also assigned our team the issues and brought our group together.

Kazuma:
